- **Relevant Coursework:** Web Development, Mobile Development, Database Systems, Data Structures and Algorithms, Data Science, Project Management.

WORK & LEADERSHIP EXPERIENCE

CBQA Solutions **León, Guanajuato, México**

Frontend Developer | UI/UX Designer August 2023 – September 2024

Led and contributed to key projects for high-profile clients such as Heineken, Toyota and Orkos, excelling in frontend development and the design of mobile and web applications.

Heineken Project

- Developed web app using React, Redux Toolkit, and TypeScript for enhanced data visualization.
- Developed 2 mobile apps using Flutter, Riverpod, and Sqflite. 50% increase in user engagement by enabling offline functionality.
- Led UI/UX design and product design for a 3-app system, using Figma.
- Managed version control and release processes using GitHub and Git.

Orkos Project

- Led product design and client interactions for mobile and web apps aimed at the San Francisco police. Experience with Jira and Agile/Scrum methodologies.
- Developed a cross-platform app using React Native, with technologies like deep linking, TypeScript, Styled Components, Expo Router. Tanstack Query, Jest and React Testing Library.
- Utilized AWS for app deployment and email management, incorporating CI/CD practices, reducing failure production features by 60% and optimizing deployment efficiency.

Setenal **Zapopan, Guadalajara, México**

Frontend Developer February 2022 – April 2023

Focused on enhancing the user interface and experience in an automotive tire maintenance system.

- Developed and maintained the web app using React.js, Redux Toolkit and JavaScript.
- Led the redesign of the system's UI using Figma, resulting in a more intuitive and user-friendly interface.
- Managed version control with Git and GitLab.
